

OUTCOMES AND EXPERIENCES

Activity	1st Level	2nd Level	Skills
1. Identifying the Fault Line by observing the main materials used to build in specific towns	I can describe and recreate the characteristics of my local environment by exploring the features of the landscape. SOC 1-07a	I can describe the major characteristic features of Scotland's landscape and explain how these were formed. SOC 2-07a	Observation Using a map
2. Creating an example of layers of sedimentary rocks in the classroom.	Having explored the substances that make up Earth's surface, I can compare some of their characteristics and uses. SCN 2-17a	Having explored the substances that make up Earth's surface, I can compare some of their characteristics and uses. SCN 2-17a	Following instructions
3. Learning about sedimentary, metamorphic and igneous rocks and how they are formed.	Through exploring properties and sources of materials, I can choose appropriate materials to solve practical challenges. SCN 1-15a	By contributing to investigations into familiar changes in substances to produce other substances, I can describe how their characteristics have changed. SCN 2-15a	Observation
